

XR MCD Special Operations Department

The Special Operations are important part of real world aviation and it is also an important part of IVAO and its aviation simulation community. Special Operations include, but are not limited to: Coast Guard operations, firefighting, search and rescue operations, lifeliners, police operations, all military flights not flying according to GAT procedures, paramilitary activities etc.

To regulate the special operations in XR MCD the Special Operations Department has being opened The department is responsible for the flights of state and experimental aviation within the division, SO events, SO tour and SO documents. Department is led by the Special Operations Coordinator (SOC) and Special Operations Assistant Coordinator (SOAC).

The XR SO department was established in 2011. Since that moment the development of special operations in Russia begun and later the XR MCD So activities has being accommodated.

The main task of Special Operations Department in the XR MCD is to popularize special operations in the division and to enhance division member's knowledge in special operations area.

Special Operations Events

XR Special Operations Department in cooperation with the XR Events Department is conducting SO events where pilots can feel themselves as military pilots and test their skills in interesting tasks:

- shipborne and aircraft carrier operations
- medical and casualty evacuation
- combat air patrol and much more

One of these events was the international SO event "Open Sky". A virtual flights of military aviation were held in Kubinka airfield and the pilots had to fly to Kubinka on a military-transport/business jet/jet fighter aircraft (formation flight) to transport an important cargo or heads of states under the military control.

Pilots and ATC participated in this event were awarded by 2 (two) SO points for the award that given to anyone that achieve his first 10 SO points. More information about SO award you can read here: <https://www.ivao.aero/specops/awards.asp>

Special Operations Tour

Russian Federation and Kazakhstan MCD invites you to participate in the new divisional Special Operations Tour 2018. During this tour you will feel like a real military pilot and learn how to perform unusual tasks, which are based on real exercises that are worked out in the armed forces of the countries from our division.

After the successful completion of the tour you will receive the "Division Special Operations Tour" award in your profile.

Special Operations Group

Special Operations Groups (SOGs) are similar to civilian Virtual Airlines, but the SOGs are focusing on performing Special Operations activities. SOG can be responsible for virtual Squadrons, Air Forces or Special Operations Units etc.

In the XR MCD division, there are currently no active SOGs. The RFF SOG was established in 2015 the Russian Division. This SOG was responsible for the divisions of state aviation, EMERCOM of Russia and the Rossiya Special Flight Unit. RFF SOG pilots performed different tasks on daily basis and participated in divisional and international SO events. RFF SOG was one of the most advanced Special Operations Group in terms of technical support and organization of flights in the IVAO. Unfortunately RFF SOG stopped its work in 2017.
