Introduction

The IVAO Special Operations department is pleased to introduce Sea Angel Rescue.

Join us for a thrilling search and rescue mission in the TTZP FIR, where you will provide critical assistance to a sinking ship and its crew. The event is designed to train pilots and maritime rescue teams in coordinated air and sea rescue operations, simulating real-life emergency scenarios.

This airport will be open from 1700UTC to 1900UTC.

Date and Time

Date: Sunday 28th July of 2024

Time: 1700UTC – 1900UTC

Aircrafts

This event is not restricted to any type of aircraft and can be flown. Anyway, we propose fighter and helicopters (OAT).

Carriers

Here we provide a list of carriers for different simulators:

MSFS:

1. Supercarrier Pro of Miltech Simulations (payware).

Pilots who won't take off from a carrier, could take off from Martinique Aime Cesaire International Airport (TFFF). Anyway, we recommend taking off from a carrier, to be more realistic and impressive.

Event information.

Join us for a thrilling search and rescue mission in the TTZP FIR, where you will provide critical assistance to a sinking ship and its crew. The event is designed to train pilots and maritime rescue teams in coordinated air and sea rescue operations, simulating real-life emergency scenarios.

Practice air and sea search and rescue techniques by coordinating with an aircraft carrier to provide emergency assistance to a sinking ship at a specific location.

A cargo ship is reported to be sinking. Your mission is to deploy from an aircraft carrier, locate the distressed vessel, and provide immediate rescue assistance to the crew. The scenario includes a partially submerged ship, lifeboats, and crew members in the water.

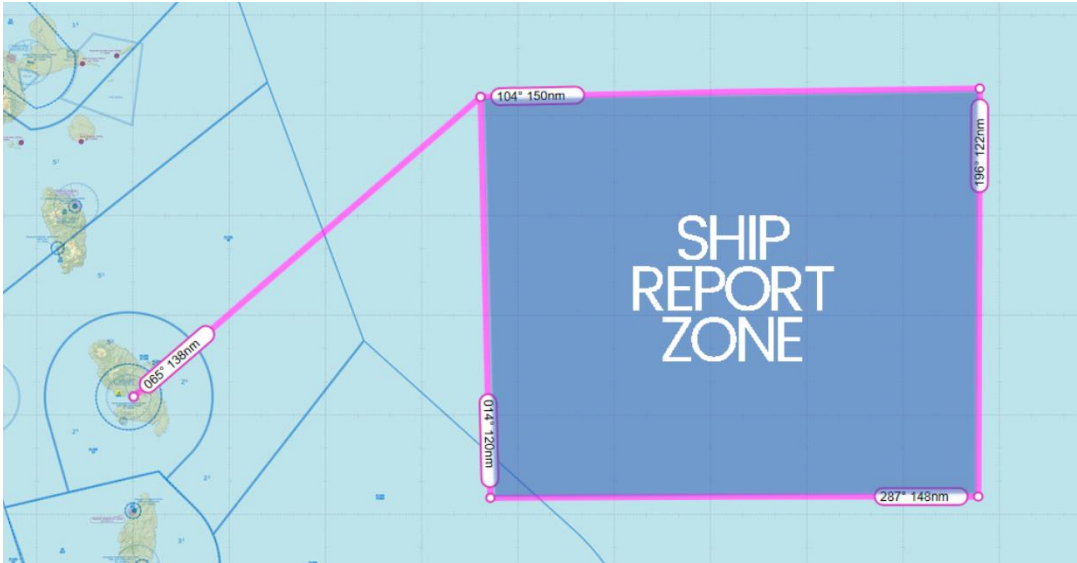

Transport rescued crew members back to the aircraft carrier for further treatment.
