

**IVAO**  
ARGENTINA

OPERATION  
CONDOR II

## INTRODUCTION

The Joint Special Operations Command (**JSOC**) has received **HUMINT** about the future location of a **HVA** from **RPR**, their Chief of Staff, who is going to be on vacation in San Martín de Los Andes - Kingdom of Orange. Our orders are to wait until he moves to the airport and before he can fly back home, capture and extract this General.

Air operations will be divided in several missions

### 1. GAIN LOCAL AIR SUPERIORITY

- a. Flying a **Fighter aircraft (F16,F22,MIR2,RFAL)**, your mission will be to secure and protect the airspace around the area of operations. do not let any aircraft land or takeoff from **SAZY**. Once on station, identify,track and if needed, intercept any radar contacts.  
DEP/ARR: Neuquén (SAZN), from this base all friendly aircraft will depart.

### 2. AIR REFUELLING

- a. Your mission is to provide fuel for friendly air assets while they conduct their missions, after that return to base. DEP/ARR: Neuquén (SAZN), from this base all friendly aircraft will depart.

### 3. HELICOPTER - AIR ASSAULT

- a. With an **UNMARKED (no country flag nor identification means) transport helicopter (AS365, UH60 or any other fast +/- 150 kt helicopter)**, your mission is the most important, take off from **SAZS**, fly between mountains to the target area and take control of the airport with your troops, once the extraction is completed, return to SAZS to be loaded in transport aircraft and return to base (disconnect after landing at SAZS).  
DEP/ARR: Bariloche (SAZS), from this base all friendly helicopters will depart.

### 4. HELICOPTER - ESCORT

- a. With an attack **helicopter (AH64, COBRA,Mi24 or any other fast +/- 150 kt helicopter)**, your mission is to escort the assault helicopters while they conduct the airport take over, neutralizing any resistance to the helicopters or troops on the assault, fly between mountains to the target area and cover the operation, once the extraction is completed, return to **SAZS** to be loaded in transport aircraft and return to base (disconnect after landing at SAZS).  
DEP/ARR: Bariloche (SAZS), from this base all friendly helicopters will depart.  
**Note:**This mission can also be done with slow acft such as **A-10,AV8B,F35B** or anything similar.
